## The Music

Good bands devote a lot of thought, and pride themselves, on knowing what songs to play and when. They have years of hands on experience, and they will adapt their set every minute to make the best of the night. On the other hand, it's your party. They would not like to find themselves playing a song that you dislike, or playing music that is inappropriate for the atmosphere you are aiming to create.

So here is what we recommend – a compromise. Give the band plenty of room to decide what is right for that moment. But give them a good indication of the kind of music you want. This will enable the band to customise the night for you. Alternatively, just tell us a few sentences about your musical tastes.

### ***Typically recognisable songs & tunes include:***

Bound for South Australia	Toss the Feathers	Ryebuck Shearer
Waltzing Matilda	Click Goes the Shears	Way Out West
Swag on my Shoulder	To Her Door	Wild Rover
Whiskey in a Jar	Home among the Gumtrees	Drowsy Maggie
Poor Ned	Bill Hart's Jig	Maries Wedding
The Flying Pieman	Tell My Ma	Masons Apron
